## **E Newsletter (Vol. 2) January to June 2025**

From the Chief editor's table

Life always has twists and turns. One must neither be overjoyed with complacency nor be drooped with vicissitude. Here goes a beautiful life lesson which would make us understand our lives' value.

A popular speaker started off a seminar by holding up a Rs.500 note. A crowd of 200 had gathered to hear him speak. He asked, 'Who would like this Rs. 500 note?' 200 hands went up. He said, 'I am going to give this Rs 500 to one of you but first, let me do this.' He crumpled the bill up. He then asked, 'Who still wants it?' All 200 hands were still raised. 'Well,' he replied, 'What if I do this?' Then he

dropped the bill on the ground and stomped on it with his shoes. He picked it up, and showed it to the crowd. The bill was all crumpled and dirty. 'Now who still wants it?' All the hands still went up.

'My friends, I have just showed you a very important lesson. No matter what I did to the money, you still wanted it because it did not decrease in value. It was still worth Rs 500 note. Many times, in our lives, life crumples us and grinds us into the dirt. We make bad decisions or deal with poor circumstances. We feel worthless. But no matter what has happened or what will happen, you will never lose your value. You are special – Don't ever forget it!'

Dr. Anupama.S.Pathak
