

9. Canteen, Staff Room/Faculty Room, Space for NCC, NSS, Rangers and Rovers, Examination Room, Medical facilities:

The college campus is equipped with various facilities that cater to the needs of both students and staff. A spacious and well-furnished staff room promotes collaboration and relaxation for teachers, while individual faculty rooms provide privacy for academic work. Dedicated spaces for NCC, NSS, Rangers, and Rovers programs support extracurricular activities and community service initiatives.

A designated examination room ensures the smooth conduct of exams, while a medical room addresses students' health and first-aid needs. Additionally, the college operates a well-maintained canteen that provides hygienic food and refreshments to students and staff. These facilities contribute to a balanced and supportive campus environment.
